Introduction. January 2026

In recent developments (2025-2026) numerous peer reviewed reports (by outstanding medical doctors) concerning the ***mRNA vaccine*** *have been published, several of which have identified the* ***Covid-19 injection*** *as a dangerous and toxic substance.*

In this regard, ***Dr. Peter McCullough,*** *a prominent Cardiologist alongside Epidemiolgist* ***Dr. Nicolas Hulscher*** *have played a central role in refuting the official narrative concerning the mRNA "vaccine".*

*While the peer reviewed articles have evolved towards an important and constructive debate concerning the mRNA "vaccine" and its devastating impacts, t****he issue of "immediate withdrawal and cancellation" of the dangerous mRNA Vaccine*** *has rarely been featured by the "prestigious" peer reviewed journals.*

In recent developments. Tennessee State **Senator Janice Bowling** has just filed Senate Bill 1949, the **"mRNA Bioweapons Prohibition Act,**" prohibiting the manufacture, acquisition, possession, or distribution of mRNA injections and products—punishable as a Class B felony under Tennessee's weapons of mass destruction statute.

The Myth of the New Virus

*\The WHO-CDC official story is that a dangerous "****NEW VIRUS"*** *was detected in Wuhan, Hubei Province, China in December 2019. It was entitled* ***2019-nCoV*** *which stands for*

*"**2019 New (n) Corona (Co) Virus (V)".***

*As of earl**y January 2020, it was the object of extensive media coverage and an unfolding Worldwide fear campaign. Media disinformation 24/7 went into high gear.*

*The Chinese authorities (allegedly) "identified a new type of virus" on January 7, 2020, using the RT-PCR test. In response, in mid to late January 2020, the WHO confirmed that: **It did not possess an isolate of 019-nCoV from a purified sample from an infected patient**, which meant that they were **unable to confirm the identity of the novel coronavirus (2019-nCoV).***

*What they postulated was that the **new virus 2019-CoV** was similar to a 2003 virus entitled "**Severe Acute Respiratory Syndrome Corona Virus**": **2003-SARS-CoV.***

*On February 7, 2020, the name of the virus **(2019-nCoV)** was renamed **SARS-CoV-2** which (according to the WHO) **is "similar" to the 2003 virus entitled 2003-SARS-CoV.***

The Berlin Virology Institute study firmly acknowledged that:

> [While]... several viral genome sequences had been released,... **virus isolates or samples [of 2019-nCoV] from infected patients were not available** ..."

What the Berlin team recommended to the WHO was that in the absence of an isolate of the 2019-nCoV virus, **a similar 2003 SARS-CoV virus should be used as a "proxy" (point of reference) of the novel 2019 coronavirus:**

> **"The genome sequences suggest presence of a virus closely related to the members of a viral species termed severe acute respiratory syndrome (SARS)-related CoV**, a species defined by the agent of the 2002/03 outbreak of SARS in humans [3,4].
>
> We report on the the establishment and validation of a diagnostic workflow for 2019-nCoV screening and specific confirmation [using the RT-PCR test], **designed in absence of available virus isolates or original patient specimens. Design and validation were enabled by the close genetic relatedness** to the 2003 SARS-CoV, and aided by the use of synthetic nucleic acid technology." There Never Was a "New Corona Virus", There Never Was a Pandemic

By Prof Michel Chossudovsky, December 30, 2025

No Evidence of a Worldwide Pandemic

*Inasmuch as there **was no evidence of a Worldwide pandemic, (ie. no new virus),** the development of a **"vaccine"** to "protect" more than 8 billion people Worldwide was an impossibility, namely from **an alleged "new virus" entitled SARS-CoV-2. The latter was 'similar" to a 17 year old virus confirmed by the** New England Journal of*

Medicine, May 2003 (NEJM) (17 years ago).

People worldwide were led to believe that ***there was a dangerous epidemic,*** *and that the dramatic March 2020 Covid-19 Lockdown -confining people in their homes– applied and enforced Worldwide was a solution to combating a deadly virus, which had spread from country to country.*

My research based on a careful review of WHO and national data, concepts and "methodologies" confirms that ***there never was a dangerous epidemic, and the identity of the "new virus" was never confirmed.***

The official WHO numbers of confirmed ***Covid-19 cases*** *used to* ***justify the declaration of a Worldwide Public Health Emergency (PHEIC)*** *on January 30th, 2020 was ridiculously low:* ***83 PCR Covid-19 "confirmed cases"*** *Worldwide outside of China (6.4 billion people)*

Three weeks later at a press conference on the 20th of February 2020 the WHO Director-General ***Dr. Tedros Adhanom Ghebreyesus*** *intimated that the pandemic was imminent:*

"[I am] concerned that the chance to contain the coronavirus outbreak was "closing" … I believe the window of opportunity is still there, but that **the window is narrowing."** (emphasis added)

What was the evidence put forth by Dr. Tedros in support of his bold statement? On February 20, 2020, there were only ***1076 confirmed [cumulative] cases outside China.***

20 February 2020
Good afternoon everyone.
Let me begin, as always, with the latest numbers.
As of 6am Geneva time this morning, China has reported 74,675 cases of COVID-19 to WHO, including 2121 deaths.
The data from China continue to show a decline in new confirmed cases. Once again, we're encouraged by this trend, but this is no time for complacency.
Outside China, there are now 1076 cases in 26 countries, with a total of seven deaths.

> **"Outside China there are now 1076 cases in 20 countries, with a total of seven deaths….**
>
> ….Of all cases outside China, **more than half are among passengers on the**

> **Diamond Princess cruise ship**"
>
> **Official Statement** of WHO Director General **Dr. Tedros**, Geneva, 20 February 2020

*The Fear campaign went into high gear alongside **grotesque media lies:***

> The figures, according to the Sunday Times, were "shattering". **If nothing was done, there would be 510,000 deaths [UK].**Under the existing "mitigation" strategy – **to shield the most vulnerable while letting everyone go about their business mostly as normal – there would be a quarter of a million"** (See also *the BBC*)

The Pfizer-Biot mRNA Covid vaccine was rolled out in mid December 2020.

What is confirmed in this article is that the devastating impacts of the **Covid mRNA "vaccine"** (rollout in mid December 2020) were **KNOWN to the U.S. HEALTH AUTHORITIES**, which were privy to a detailed **Classified Pfizer Report** on the impacts of the Vaccine**.**

The Pfizer Report was known to the Health authorities in early March 2021. It was declassified and made public in October 2021 under Freedom of Information (FOI). It has not been the object of media coverage nor is it known by the broader public.

And it has NOT been the object of analysis in peer reviewed reports.

My objective concerning **The "Secret" Pfizer Report**

1. must be carefully examined by medical doctors and hospital personnel,
2. Quoted and debated in peer reviewed reports with a view to endorsing the **"THE CALL FOR THE IMMEDIATE WITHDRAWAL OF THE COVID VACCINE WORLDWIDE ".**
3. Debated by the U.S House of Representatives and the Senate following the initial hearings in October 2025.
4. The broader Public should be informed with a view to developing **a Worldwide Mass Movement.**

Bombshell: Pfizer's "Secret" 2021 Declassified Report.

CALL FOR IMMEDIATE WITHDRAWAL OF COVID "VACCINE"

by Michel Chossudovsky

First reported by Global Research, December 5, 2021 following the October 2021 release of the Classified Report under FOI.

Update with Video Interview on May, 17, 2022, Introduction added on January 22, 2026

 ***The Pfizer BioNTech mRNA vaccine*** *was launched in the US on the 14th of December 2020 after the granting of Emergency Use Authorization on December 11, 2020.*

As of early March 2021. ***The U.S. Department of Health and Human Services, (HHS)*** *and its agencies including* ***The Center for Disease Control (CDC),The National Institute of Allergy and Infectious Diseases (NIAID)*** *under the helm of* ***Dr. Fauci****, and the* ***Food and Drug Administration (FDA)****, were aware from the very outset of the dangers underlying the* ***Covid Pfizer-BioNtech mRNA "vaccine".***

In liason wth the WHO, pressured by Big Pharma, they nonetheless granted Pfizer-Moderna "the greenlight" to market the mRNA "Vaccine" Worldwide.

Pfizer had commissoned the conduct of a detailed "**Classified Report" entitled:**

CUMULATIVE ANALYSIS OF POST-AUTHORIZATION ADVERSE EVENT

REPORTS OF PF-07302048 (BNT162B2) RECEIVED THROUGH 28-FEB-2021

The objective of the **Classified Pfizer Report** was to tabulate and categorize detailed data pertaining to the impacts of the **Pfizer BioNTech mRNA** vaccine on, Mortality, Morbidity and Adverse Events from December 14, 2020 to February 28, 2021. namely two and a half months.

The results of Pfizer's classified Report were not made public. They were available to several health agencies (including the CDC, NIAID and FDA) involved in overseeing the

distribution of the vaccine under the clauses of "Emergency Use Authorization".

In October 2021, the notorious Pfizer Report was Declassified under Freedom of Information (FOI). **It was a Bombshell. It revealed and confirmed the nature of the deadly vaccine.**

> "Have you seen the document dump on the Pfizer vaccine data? It's a bombshell. No wonder the FDA fought to keep it hidden for 55 years. By late February of 2021, **Pfizer had already received more than 1,200 reports of deaths allegedly caused by the vaccine** and **thousands of reported adverse events**, including 23 cases of spontaneous abortions out of 270 pregnancies and more than 2,000 reports of cardiac disorders."

Bear in mind, this is Pfizer's own data.

This Confidential Pfizer Report released as part of a Freedom of Information (FOI) procedure provided data on deaths and adverse events recorded by Pfizer from the outset of the vaccine project in mid December 2020 to the end of February 2021, namely ***a very short period (at most two and a half months).***

The Pfizer BioNTech vaccine was launched in the US on the 14th of December after the granting of Emergency Use Authorization on December 11, 2020.

In a twisted irony, the data revealed in this "insider report" **confirms in relation to mortality and morbidity that the alleged "vaccine" is a dangerous drug. It also refutes the official vaccine narrative peddled by the governments and the WHO.**

According to the Pfizer "Declassified" Report:

> "It is estimated that approximately (b) (4) doses of BNT162b2 were shipped worldwide from the receipt of the first temporary authorisation for emergency supply on 01 December 2020 through 28 February 2021
>
> Cumulatively, **through 28 February 2021 [in less than three months], there was a total of 42,086 case reports (25,379 medically confirmed and 16,707 non-medically confirmed) containing 158,893 events**. Most cases (34,762) were received from United States (13,739), United Kingdom (13,404) Italy (2,578), Germany (1913), France (1506), Portugal (866) and Spain (756); the remaining 7,324 were distributed among 56 other countries."

3. RESULTS

3.1. Safety Database

3.1.1. General Overview

It is estimated that approximately (b) (4) doses of BNT162b2 were shipped worldwide from the receipt of the first temporary authorisation for emergency supply on 01 December 2020 through 28 February 2021.

Cumulatively, through 28 February 2021, there was a total of 42,086 case reports (25,379 medically confirmed and 16,707 non-medically confirmed) containing 158,893 events. Most cases (34,762) were received from United States (13,739), United Kingdom (13,404) Italy (2,578), Germany (1913), France (1506), Portugal (866) and Spain (756); the remaining 7,324 were distributed among 56 other countries.

CONFIDENTIAL
Page 6

FDA-CBER-2021-5683-0000059

In early March 2021 the various health entities of the US government mentioned above were **fully aware that the marketing of the Pfizer mRNA vaccine would result in an upward wave of mortality and morbidity at the level of the entire planet.**

The Confidential Report also confirms the subsequent analysis of numerous medical doctors and scientists who have revealed in peer reviewed studies, the catastrophic nature of the mRNA "vaccine".

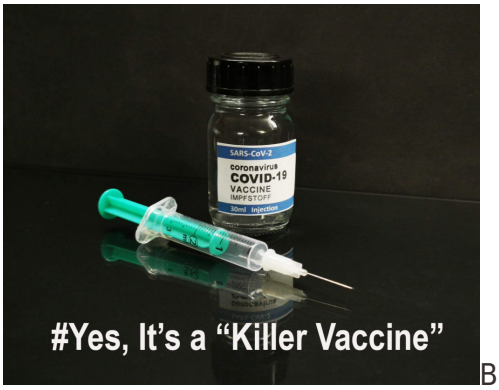
The data on mortality and morbidity tabulated in the Pfizer Report confirmed that **the mRNA vaccine is a dangerous drug, which should be withdrawn immediately. 5 YEARS LATER. THIS HAS NOT HAPPENED.**

"From the Horse's Mouth"

What is contained in Pfizer's "confidential" report is detailed evidence of the impacts of the "vaccine" on mortality and morbidity.

This data –which emanates from the "Horse's Mouth"– **can now be used to confront as well formulate legal procedures against Big Pharma, the governments, the WHO and the media.**

In a Court of Law, the evidence contained in this Big Pharma confidential report (coupled with the data on deaths and adverse events compiled by the national authorities in the EU, UK and US**)** is **irrefutable**: because i**t is their data and their estimates.**



Bear in mind: it's data which is based on reported and recorded cases, which constitute a small percentage of the actual number of vaccine related deaths and adverse events.

This is a de facto **Mea Culpa on the part of Pfizer. #Yes it is a Killer Vaccine**

Pfizer was fully aware that the mRNA vaccine –marketed Worldwide since early 2021– **would result in an upward wave of mortality and morbidity**.(see Video below)

This is tantamount to a **crime against humanity on the part of Big Pharma.**

It is also a **Mea Culpa and Treason on the part of corrupt national governments Worldwide** which were pressured by Big Pharma.

Pfizer knew from the outset that it was a killer vaccine.

Five Years later. with some exceptions, no meaningful attempt has been made by national governments **to call for the withdrawal of the killer vaccine Worldwide.**

In a bitter irony,

> **The U.S Food and Drug Administration (FDA)** has ordered **Pfizer and Moderna to issue warnings that their Covid mRNA "vaccines" [August 2025] carry a high risk of heart damage, particularly for young men.** The new guidance highlights **the deadly risk of myocarditis from mRNA injections."**(See Frank Bergman)

That deadly risk was known to the FDA and the CDC from the very outset. They failed to act. The mRNA vaccine was fully endorsed and imposed, nationally and internationally.

People were told that the vaccine is intended to save lives. That's a Lie. The controversial "Declassified" Pfizer report has been casually ignored by the media and the governments.

"Killing is Good for Business": It is a multibillion dollar operation worldwide. And Pfizer already has a criminal record (2009) with the US Department of Justice on charges of "fraudulent marketing".

We invite the "**Covid-19 Fact Checkers"** to peruse this Confidential Pfizer report.

(Oops. It just so happens that Reuters "Fact Checker" chairman and former Chief Executive Officer (CEO) James C. Smith "is also a top investor and board member of Pfizer". "No Conflict of Interest").

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project "destroys people's lives". He provides a comprehensive analysis of everything you need to know about the "pandemic" — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

"My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the "deadly" COVID-19 "vaccine". This crisis affects humanity in its entirety: almost 8 billion people.

We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument."

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —**Dr. Mike Yeadon**

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. –**Dr. Emanuel Garcia**

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig**

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –**David Skripac**

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
